Solar Power for Private Industry

COMPANY

PROFILE

We don’t just build projects.

We build peace of mind for 25 years.

About Us

BPD Developer develops solar projects and supplies power to private factories. We deliver Group Captive and Open Access projects, rooftop and ground-mounted EPC, and long-term operations.

Our focus is Punjab’s steel, forging, foundry, textile and manufacturing industries.

Varinder Singh
Managing Director

BPD
DEVELOPERS

Vision

Help private industry secure dependable, competitively priced solar power for its long-term operations.

Mission

Deliver industrial solar projects from load assessment and grid approvals through commissioning and monthly energy accounting, with clear costs and responsibilities.

BPD
DEVELOPERS

What We Do

We develop solar generation for private factories and deliver industrial EPC projects.

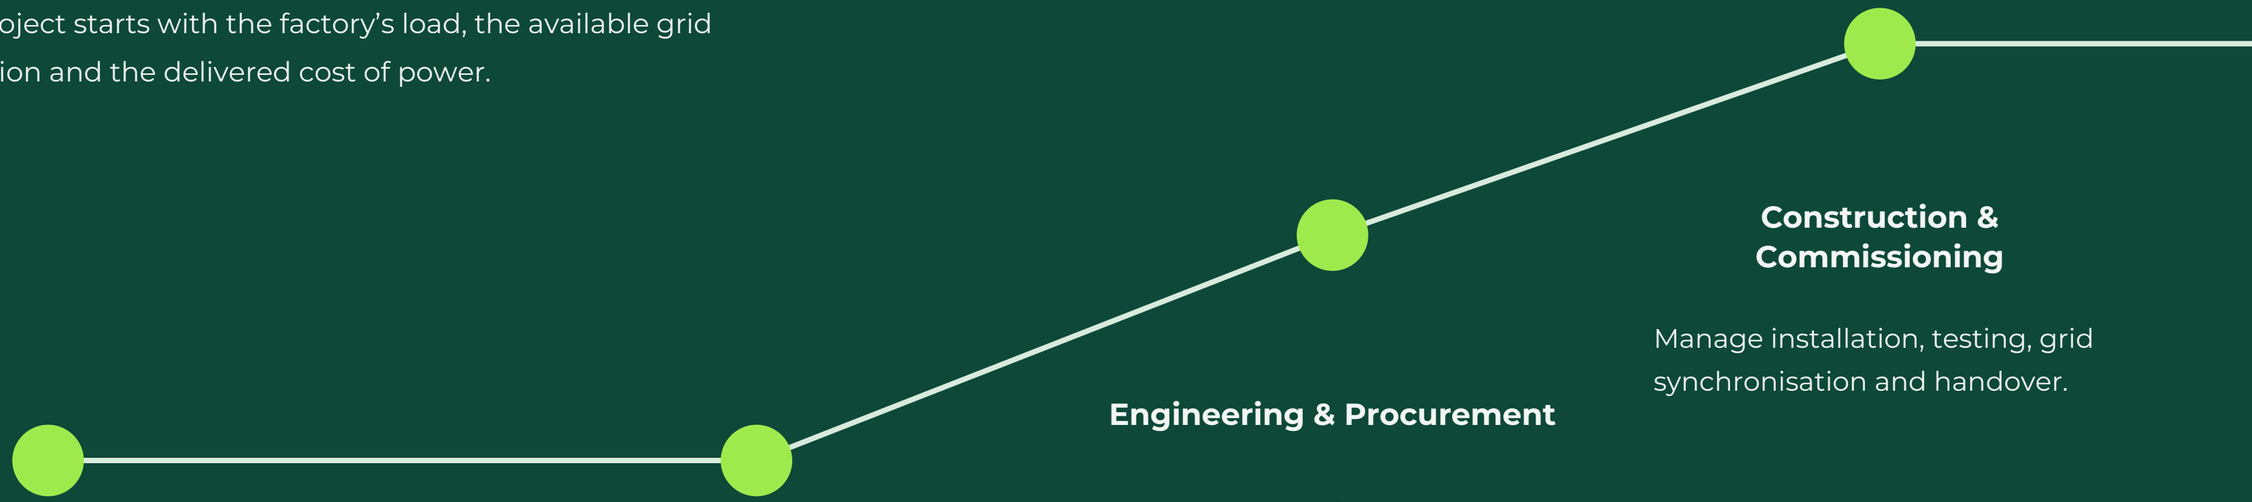
Our work extends from feasibility and grid approvals to long-term operations.

- Group Captive & Open Access
- Industrial Solar EPC
- Rooftop & Ground-Mount
- Feasibility & Project Reports
- Grid Connectivity & Approvals
- Operations & Energy Accounting

BPD
DEVELOPERS

Project Delivery

Every project starts with the factory’s load, the available grid connection and the delivered cost of power.



Feasibility

Review bills, load profile and site constraints. Model energy production and delivered power cost.

Development & Approvals

Assess land and substation capacity. Structure the PPA and captive participation.

Engineering & Procurement

Complete plant design, equipment selection and procurement.

Construction & Commissioning

Manage installation, testing, grid synchronisation and handover.

BPD
DEVELOPERS

Operations & Maintenance

Monitor generation, maintain equipment and respond to faults.

Energy Accounting

Reconcile metering, consumption, utility statements and banking each month.

Solutions

Client-owned EPC

The client funds and owns the plant. BPD builds and commissions it.

Developer-owned PPA

The project supplies power under contract, including on-site RESCO arrangements.

Investor-owned projects

BPD develops, builds and operates the asset for the project investor.

BPD
DEVELOPERS

Health, Safety & Quality Commitment

Site procedures cover work at height, electrical isolation and permits. Quality checks include material inspection, string testing and thermography. Handover includes as-built drawings, test reports and operating manuals.

Project Pipeline

November 2026

120 MW	**Punjab Solar Cluster** Group Captive and Open Access power supply for private industrial users in Punjab. Industrial offtake discussions are underway.	**In development**
6 MW	**Karnataka Solar Project** Solar project for HESCOM in Karnataka.	**Under execution**

Project capacities and stages are based on company information.
